ABOUT ME

A junior Flutter developer passionate about turning ideas into elegant, high-performance mobile apps. I've worked across Flutter, Compose Multiplatform, Django, Supabase and Drift—building smooth, scalable products with clean UI, fast performance, and maintainable architecture. Always learning, always shipping.

EDUCATION

BACHELOR OF ENGINEERING (CSE)
Lok Jagruti Kendra University,
Sarkhej, India
CGPA - 9.16
2021 - 2025

HIGH SCHOOL EDUCATION (10TH & 12TH)
Hebron Secondary & Higher Secondary School (GSEB), India
Class X (Percentage of 82) 2018 - 2019
Class XII (Percentage of 76) 2020 - 2021

TOOLS

Git & GitHub
Android Studio
VS Code

LANGUAGE

- English
- Gujarati

TECHNICAL SKILLS

- **APP DEVELOPMENT**: Flutter, Compose Multiplatform, Jetpack Compose
- **FRONTEND**: HTML, CSS, JavaScript, Node JS, .Net Framework, PHP, ReactJS, ExpressJS
- **BACKEND**: Drift, Hive, Django, FastAPI, Firebase, Supabase, MongoDB
- **PAYMENT INTEGRATION**: RazorPay, Stripe
- **AI/ML**: Computer Vision CV2, NumPy, Pandas, TensorFlow, Scikit-learn
- **DATABASES**: PostgreSQL, SQLite3
- **LANGUAGES:** C, C++, Java, Python, Dart, Kotlin
- **CAD SOFTWARES**: Cinema4D, Autodesk 3Ds Max, Autodesk Maya, Blender

EXPERIENCE

Freelance Flutter Developer | Remote *May 2025 - Present*
https://play.google.com/store/apps/developer?id=SkiaTech

- Worked as a freelance Flutter developer, building cross-platform mobile applications for clients and personal product launches.
- Developed smooth, scalable UIs, integrated real databases like Supabase and focused on clean architecture, performance, and user-friendly design. Delivered multiple apps from concept to deployment, handled client feedback, and continued improving features across releases.

Amri Systems | Web Development *March – May 2025*
https://www.amrisystems.com/

- Contributed to the development of real-world web applications including Pretty Little Arts and MKMP (Mera Kaam Meri Pehchaan) using Django, Firebase, and modern web stacks.
- Spread the development of a native-platform mobile application, improving app performance by 30% and reducing crash rates.
- Integration of the Razorpay payment gateway

PROJECTS

YVB Catalog | Flutter
October - Present 2025

- A client project built for Yogeshwar Vasan Bhandar, a kitchenware retail brand. Developed using Flutter, the app offers a fast, modern, and completely offline catalog browsing experience.

Notes | Flutter
August - September 2025

- A clean, fast Flutter app for simple notes and to-dos. Create, edit, and delete timestamped notes, manage to-do lists with check/uncheck and swipe-to-delete, and multi-select for quick cleanup. Works fully offline with local data storage via Hive.

LitRate | Compose Multiplatform
June - July 2025

- A sleek cross-platform book discovery app built with Compose Multiplatform. Browse titles, view ratings and details, and enjoy a smooth unified experience across Android, iOS, and desktop using shared Kotlin logic with MVVM and RESTful API.

MKMP, PrettyLittleArts | Python, Django
INTERNSHIP 2025

- Contributed to the development of real-world web applications including Pretty Little Arts and MKMP (Mera Kaam Meri Pehchaan) using Django, Firebase, and modern web stacks.

Number Plate Detection | Python, CV2, YOLO
BTECH SEM VIII 2025

- Worked on computer vision automation using Python, OpenCV, and YOLO for real-time number plate detection and OCR. Focused on accurate detection, text extraction, and high-performance image processing.

Qiskit Visualization | Python
BTECH SEM IV 2023

- Developed a Visualization GUI for illustrating dynamic nature of Qubit using Qiskit Module of IBM.
